

Dr. Pendl & Dr. Piswanger Albania, a Human Resources Consulting Company, very successful in the Albanian market since 2001, branch of Dr. Pendl & Dr. Piswanger GmbH headquartered in Vienna, is currently looking for:

E-Learning Support/Developer(s)

ROLE

E-learning developers create course materials that can be studied on a computer network or online. You must have the ability to produce high-quality eLearning solutions in a fast-paced collaborative team environment.

A strong desire for continuous improvement in training products and programs is essential!

JOB SUMMARY

Under the direction of designated supervisor, you will be involved in analyzing, developing and supporting innovative solutions through the use of appropriate state of the art technology, grounded in sound educational theory and instructional design.

CHARACTERISTIC DUTIES AND RESPONSIBILITIES

- You will be working collaboratively with instructional designers and developers to implement the development phase of a unique instructional design plan.
- You will be developing academic courses, web sites and/or learning modules using course management software, web authoring tools, and eLearning technologies to meet strict timelines.
- The need might arise for you to modify and enhance existing course design through the use of current and emerging technologies, applying knowledge of educational theory and best practices in pedagogy.
- Developing interactive instructional learning objects is another of your responsibilities.
- As part of the team, you shall be performing related duties as assigned.

PREFERRED QUALIFICATION/SKILLS

- ☑ Bachelor's Degree in Instructional Design, Educational Technology, or a related field and a minimum of 2 years' experience
- ☑ Ability to predict and overcome obstacles: A conceptual thinker who proactively solves problems and makes common-sense decisions
- ☑ Meticulous attention to detail.
- ☑ Proactive and highly organized, with strong time management and planning skills
- ☑ Demonstrated ability to perform the majority of the following specific production areas:
 - ☛ Multimedia development including interactive learning objects
 - ☛ Graphic and visual design skills
 - ☛ Web design skills including HTML and CSS
 - ☛ Strong Computer Skills
 - ☛ Development of online courses in a learning management setting
 - ☛ Course development and technology support in an academic setting
 - ☛ Expertise in the use of eLearning development tools
 - ☛ Experience using social learning technologies
 - ☛ Technology support in an academic setting
 - ☛ Working knowledge of instructional design theory
 - ☛ Comfortable with learning new technologies
