

Mechanical Technician - Devoll Hydropower - Albania

Devoll Hydropower Sh.A. (DHP) is an Albanian registered company, part of the Norwegian Statkraft Group. In line with a Concession Agreement, DHP is responsible for the implementation and operation of the Devoll Hydropower Project along the Devoll River, in southeast Albania.

The position of Mechanical Technician for operation and maintenance of Statkraft's Power Plants in Devoll River, will be part of a professional team that is responsible for managing the mechanical engineering tasks and maintenance planning of Banja and Moglice HPPs. The position shall report to the Maintenance Manager.

Your role:

Areas of responsibility will include but not limited to:

- Responsible for the operation and maintenance of mechanical equipment of the DHP HPPs, by including HSW (spillway gates, intake gates, discharge gates)
- Responsible to prepare a schedule of maintenance for the mechanical equipment
- Coordinate with the maintenance manager capacities requirements for planning purposes
- Prepare maintenance reports as well as analyses on the maintenance conducted
- Conduct site inspections in alignment with the check-schedule and summarize findings
- Support the line manager for the preparation of requirement/instruction/procedures required within the organization
- Conduct additional tasks/duties as required by the line manager

Your profile:

- Mechanical technician profile
- At least 2 years of previous experience in HPP in similar roles
- Knowledge, as well as understanding on maintenance and operation processes of:
 - equipment under pressure (water, oil and other gases like air, SF6, N2 etc)
 - electro-mechanical equipment in hydropower plants
 - Turbines (vertical and horizontal shaft) Governor
 - General knowledge of the operation in hydropower plants equipment
 - General knowledge of hydraulic equipment, drainage systems, confined spaces.
 - HSSE
 - Use of workshop equipment: welding, cutting, milling.
- Communication and reporting skills
- Fluent in Albanian and English
- High level of integrity

Starting date: ASAP

Application deadline: 26.03.2025

Location: Banja DHP Office, Shtepanj Village, A.U Gostimë, Cërrik Municipality, Elbasan.

Devoll Hydropower offers:

- Professional and personal development in a company experiencing strong growth.
- A positive working environment characterized by expertise, responsibility and innovation.
- A diverse workplace regarding gender, age and cultural background
- Competitive terms of employment and excellent benefit schemes
